

### ARROW ROAD

**LOCATION:** Elk Grove Village, IL

**SPACE:** 20,800 square ft.

**SCOPE:** Provide materials and finishes package and furniture solutions.

**THE PROBLEM:** Arrow Road came to Vertical Interior Design because they were in need of an update to their office space. Arrow Road was looking to attract more talent and needed a refresh with a brand new building.

**THE SOLUTION:** We were brought in to help with all the finish and material selections. We provided a finish palette that was industrial and modern, and included a statement conference room created in metal, concrete & wood. VID incorporated Arrow Road's company colors in a way that worked for the interior without being too bold. The end result was plenty of talented new hires, and overall happier employees.

**TESTIMONIAL:** "Layout after layout and change after change made the office improved with each revision. Your whole process from start to finish was very well handled." - John Healy, President

**FURNITURE COST PER SQ FT:** \$12
